Indications:

Phosphorus rich feed additive works to increase fertility, the number of offspring, milk and meat production, the lactating period, proportional bone integrity, and overall growth. Additionally, this product prevents vision-related diseases, dystocia, anemia, milk fever, lameness, obturator nerve paralysis, and stress-related diseases.

Dosage and administration:

Livestock	Daily Dosage
Lactating Cows	150 g mixed in concentrate or 20 kg per ton feed
Cows	60 g mixed in concentrate or 8 kg per ton of feed
Lambs and Goats	20 g mixed in concentrate or 5 kg per ton of feed

Storage conditions :stored away from light, in a dry and cool place.

Packaging: 10kg package

Science Laboratories
